Hey Everyone-

Pearl Hart asked me if I would pass on the information for one of my fabric suppliers. As you all have become aware that it is impossible to find sweatshirt fleece 'especially' with dyed to match ribbing! My supplier is Stretch & Sew Fabrics in Stockton California. She also carries Swimsuit fabrics, elastics, very nice knits,lingerie (tricot) fabrics Stretch & Sew and Kwik Sew patterns for the hoodies!

She will send samples for the kids to choose from, but best of all, she will divide up the fleece with the ribbing into individual packets for you that are already for cutting out - all for \$20/packet! I usually have the kids trace off the Stretch & Sew patterns for the hoodies and share them. Here's the information below.

Hope this helps someone, I do the Hoodies in Clothing I/Sports Sewing.
